

THE BLAIRMORE ENTERPRISE

VOL. XXXIV, NO. 45.

THE BLAIRMORE ENTERPRISE, FRIDAY, NOVEMBER 12, 1943.

\$2.00 PER ANNUM.

"Serve the Church that the Church May Serve You."

CENTRAL UNITED CHURCH

BLAIRMORE
Rev. E. B. Arrol, B.A., Minister

Services Sunday next:

11.00 a.m., Senior school.
2.00 p.m., Junior school.
7.30 p.m., Public Worship.

"v"

ST. LUKE'S CHURCH, BLAIRMORE

Rev. J. R. Hague, A.T.H., Incumbent

Services Sunday next—

11 a.m., Holy Communion; Sermon.
12 Noon, Sunday School.

"v"

SALVATION ARMY, COLEMAN

Lieuts. S. Nakhreev and R. Hammond,
Officers in charge

Sunday services:

11.00 a.m., Holiness Meeting.
8.00 p.m., Sunday School.

7.30 p.m., Salvation Meeting.

Tuesday: 7.30 p.m., Red Shield Auxiliary and Home League.

Thursday: 8 p.m., Praise Meeting.

Fridays: at 6 p.m., Boys' Club.

BLAIRMORE. Gospel meeting every Friday at 8 p.m.

Funerals and dedications on application to the local officer.

"v"

A local teacher called for sentences using the word "beans."

"My father grows beans," said the bright boy of the class. "My mother cooks beans," came from another pupil. Then a third piped up: "We are all human beans."

SPECIAL SUBSCRIPTION OFFERS

The Enterprise has the agency for and offers the following papers and magazines at the following rates:

American Girl, one year	\$2.00
American Fruit Grower, 1 year	.50
American Home Magazine, 1 yr	1.50
American Magazine, one year	3.00
American Mercury, one year	3.50
Better Home & Homemaking, 1 yr	3.50
Better Home and Gardens, 1 yr	1.50
Canadian Home Journal, 1 year	1.00
Canadian Home & Gardens, 1 yr	2.00
Canadian Horticulture & Home, 1 year	1.00
Chatslain Magazine, one year	1.00
Child Life, one year	2.75
Children's Activities (10 nos) 1 yr	2.50

MINERS' STRIKE

Approximately 1,500 miners in the Crow's Nest Pass area voted today to return to work today, following the lead of other sections of District 18, U. M. W. of A.

Pass mines which have been idle for about a week will resume operations tomorrow. It is said that 500 Bellevue district miners are still out.

SAYS MINERS SHOULD GO BACK TO JOBS

Complete return of the striking coal miners to their jobs should take place before the royal commission resumes its work, in the opinion of the coal operators.

"If this commission is to continue with the additional powers granted under the order-in-council," said Clement Stubbs, secretary-treasurer of the Western Canada Bituminous Coal Operators' Association, "the miners should return to work. The additional powers for the commission were conditional on this point."

"The commission and the government should clarify the position and procedure of the commission under these circumstances. Every effort should be made to get the miners to honor their part of the bargain before the commission takes further evidence or acts in accordance with its new authority," Calgary Herald.

FIVE TREES FOR EACH SOLDIER

Unbelievable as it may seem, a study of the present war effort by the American Forestry Association reveals that five mature trees are required to equip and maintain each man in our armed forces. Those trees are allotted as follows:

One tree is needed for his living quarters, mess hall, chapel and recreational facilities. Another provides the wooden crates necessary in shipping his food, clothing, tanks, guns, ammunition. Wood from the three remaining trees will be used for making necessary equipment used in waging modern warfare—wood cellulose in high explosives, wood in training planes, wood in gun stocks, shipyards, factories, and many other essential items.

By the end of 1943, some twenty million trees from our forests will be in the war industry, backing up our fighting men. If these trees were standing 10 abreast and 10 feet apart, they would reach from New York to San Francisco.

REMEMBRANCE DAY

FITTINGLY OBSERVED

A large audience turned out Thursday forenoon for the annual Remembrance Day service held in the Orpheum theatre, kindly loaned for the occasion by Mr. Cole.

The service, held under auspices of the Blaimore Branch of the Canadian Legion, BESL, was presided over by Comrade B. Hobson. Attending were air cadets, members of the Legion and IODE. The main address was delivered by Mayor E. Williams, with invocation, scripture reading, memorial prayer and benediction were in charge of Rev. E. B. Arrol, B.A. Following the service, the cenotaph was visited, a wreath placed and suitable service held. The "Last Post" was sounded.

Immediately following the services here, the gathering proceeded to Frank, where services were being conducted, in which citizens of Bellevue, Hillcrest and Coleman took part.

Treasury branches instituted by L. D. Byrne, technical adviser of the Social Credit government, in the fiscal year 1942-43 cost Alberta \$389,963, it was announced on Monday. Total expenditure was \$311,635, and revenue from treasury houses was \$121,651.

TWELFTH SEASON

Sir Ernest MacMillan is conducting the Toronto Symphony Orchestra for the twelfth consecutive season. The entire series of concerts are being broadcast on alternate Tuesdays over the CBC alternative network. On November 16th at 8 p.m., listeners will again have the opportunity of hearing one of the leading symphonic organizations on the North American continent. Sir Ernest is also directing the chorus, soloists and orchestra in the current CBC presentation of Handel's choral dramas each Sunday evening at 9.15.

MANPOWER MOBILIZATION

Responsibility for mobilization and allocating all manpower in Canada rests with National Selective Service under the Department of Labor.

The need of preventing avoidable labor turnover in industries highly important to the war effort was emphasized in September when further control of employment in these industries was authorized.

Written permission of a Selective Service officer now is required before employers in "A" and "B" labor priorities may release male employees and before male employees in the same industries may give notice of separation to their employers.

"A" and "B" are the two highest priorities and include all war industries and essential civilian services, including the delivery of fuel, in cities, food processing and meat packing plants and many other services. Many thousands of firms are affected.

Selective Service officers may permit a change of employment in cases where obvious hardship or unfairness would result from a refusal to grant permission.

With more men urgently needed by the armed forces, the three services have planned a co-operative recruiting programme designed to secure more effective use of all fit Canadian manpower who now are in or who in future may join any of these services. The programme places top emphasis on air crew, followed by overseas army service. An equitable exchange of men will be made between the army and air force at overseas.

"Sorry, madam, but licenses are issued only when your form is filled out properly."

"Why, I like your service, sir! We can get married no matter what I look like."

Revenue Minister Gibson at Ottawa on Tuesday announced that 1942-43 income tax collections had passed the billion dollar mark and stood at \$1,068,625,757.

No indication of sabotage has been found in connection with the fire Saturday which destroyed two Royal Canadian Ordnance Corps workshops at Camp Borden military camp.

Wife: "How did you like the WAC parade, dear?"

Colonel: "Marvelous. Five thousand women and not a slip showing."

ELKS TO INSTALL

TUESDAY NEXT

At the regular meeting of Blaimore Lodge of Elks on Tuesday night next officers for the ensuing term will be installed by Edwin L. Pitt, D. D. G. E. R., of Granum, who will be accompanied by a supporting staff.

A splendid programme for the evening is being arranged, and a 100% attendance is expected.

HONOR ROLLS ARE DEDICATED

The Blaimore United church was crowded to capacity on Sunday night for the service of honor rolls dedication.

Attending were members of the IODE, War Veterans and Cadets, the latter in charge of AC FO S. White, commanding officer, and AC PO D. MacPherson, adjutant.

Messrs. White and MacPherson conducted the responsive reading and reading of names, respectively, while Mr. B. Hobson, president of the local Canadian Legion, unveiled the rolls. The minister, Rev. E. B. Arrol, B.A., delivered an appropriate address. The choir, under the able leadership of Mr. W. G. Moffatt, rendered two anthems, "Dear Land of Home" and "Thanks Be to God," and Mrs. Alfred McKay sang a solo, "Keep Thou My Heart." Members of the church orchestra, conducted by Mr. Evan Gushul, gave valuable assistance in the service of praise.

There are at present ninety-eight names on the honor rolls, representing members of the church and others who have enlisted in the various branches of the armed forces. The rolls are very artistic and the names are beautifully inscribed, the work of framing and inscribing being done by Mr. Evan Gushul, of the Gushul Photographic Studio.

SEE INVASION BEFORE SPRING

The impression prevailed in London on Tuesday that the hour for the second front promised by Marshal Joseph Stalin had been advanced materially as a result of the close military co-operation envisaged at the Moscow conference.

Since the spring pause in Russia for the past two years has been a long one—beginning about April and ending in June, when the ground hardens after the rains—an Allied attack during that period would lack the advantage of simultaneous pressure from the east. Consequently, the most favorable time for an invasion of the greatest advantage to all three powers should seem to be before the spring lull, or after, and scarcely any one believes it will be that late.

Nurse at Asylum: "There's a man outside who wants to know if any male patients have escaped lately."

Doctor: "Why does he ask?"

Nurse: "He says somebody has run off with his wife."

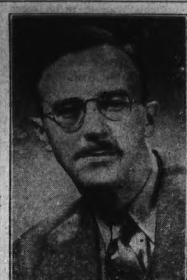

Evan Gushul went to Calgary this week, where he is to take radium treatment for a wrist infection.

Sgt. Alan Wilmut Young, son of R. M. Young, of Camrose, was reported missing Saturday after flying operations.

Nurse: "I think that soldier in I is regaining consciousness, doctor. He just tried to blow the foam off his medicine."

A wedding carriage passed through the streets of London the other day with this inscription chalked on the back: "Result of Careless Talk."

The Alberta Liquor Control Board's net profit on liquor in the year ended March 31st last reached a total of \$4,968,376. Gross sales totaled \$16,968,626, and license fees \$301,322.

PUBLIC AFFAIRS

Neil Morrison is the recently appointed CBC supervisor of talks. Mr. Morrison is a graduate of the University of Manitoba. He joined the CBC in 1940, after post-graduate work at McGill, and was made assistant to the supervisor of the farm broadcast department the following year. Having successfully developed the group listening technique which has been a notable feature of national farm radio broadcasts (9.30 p.m. Mondays), Mr. Morrison has now returned to head the department, with headquarters in Toronto, with which he was first associated on joining the CBC.

BOOTH-HARMER NUPTIALS

A very pretty wedding was solemnized in the study of Southminster United church in Lethbridge at 6 p.m. on Saturday, November 6th, when Roberta, youngest daughter of Mr. and Mrs. J. B. Harmer, of Blaimore, became the bride of Frank, youngest son of Mr. G. Booth, of Coleman. Rev. H. Mutchmor officiated.

The bride was given in marriage by her father, while Miss Isabel McFadyen, of Blaimore, attended. Mr. Jack Nelson, of Coleman, supported the groom. Among those present at the ceremony were Mr. and Mrs. Harmer, and Mrs. Porter and Marlyn sister and niece of the bride.

The bride looked charming in a two-piece dress of gold crepe with brown accessories and corsage of Talisman roses. The bridesmaid wore an afternoon dress of crimson brown with matching accessories, and a corsage of pink carnations.

After the ceremony a buffet luncheon was served at the home of Mrs. W. Porter, who was assisted by Miss Pauline Pavan. The happy couple will take up residence in Blaimore.

A certain newspaper editor has cause to admonish his son on account of his reluctance to attend school. "You must go regularly and learn to be a great scholar," said the fond father encouragingly, "otherwise you can never be an editor; you know what would you do, for instance, if your paper came out full of mistakes?"

"Father," was the reply, "I'd blame 'em on the printer."

And then the father fell on his son's neck and wept for joy. He knew he had a worthy successor for the editorial chair.

"Many deers — the sweeter kind — were brought in during the past week."

Bear are reported fairly plentiful in this district, but so far none have been brought in.

A mid-fall dance is to be held in the Columbus hall on Friday night, November 26th.

The IODE annual ball at the Columbus hall last night was very well attended and much enjoyed.

She: "You deceived me before we were married. You told me you were well off."

He: "I was, but I didn't really know it."

APPEAL FOR MEN WHO CAN BE SPARED FROM FARMS

Under the Dominion - Provincial farm labor programme an appeal is being made for men, who can be spared from the farms during the winter months, for work in other essential industries. The need in industries such as logging, lumbering, mining, fishing, packing plants and track maintenance is acute, and in order to meet the requirements in these industries, farmers and farm workers, who can be spared from the farms during the slack season, are being asked to take employment outside of agriculture.

Only men who can be spared from the farms will be accepted for employment in other industries, and to guard against essential men leaving the farm, the approval of the district agriculturist or local labor representative is required before the worker is directed to other work. As further assurance that the farm worker will be available for the 1944 production campaign, his permit to engage in another occupation outside of agriculture will automatically expire on March 31st, 1944.

When a farm worker of military age secures temporary employment in an essential industry outside of agriculture, pursuant to a permit from National Selective Service, such temporary employment will not interfere with his postnomination as a farm worker. However, the worker must notify the War Mobilization Board of his change of address and employment.

The recruiting campaign is being organized by the district agriculturists, who are being assisted by the local labor representatives and members of the farm for victory committees. Men who can be spared from farms during winter months should inquire of the district agriculturist or local labor representative of employment available, and they may secure full information from these officials.

HILLCREST HAPPENINGS

LAC M. D'Amico, RCAF, returned to his post at Calgary after visiting friends and relatives here.

Miss S. McDougall returned to Calgary after a visit with her parents, Mr. and Mrs. Fred McDougall.

PO R. D'Amico returned to his post in Prince Edward Island, and hopes soon to leave for overseas. He had been visiting friends and relatives here.

F. White, W. Chan and V. Rossi returned from Vancouver by air to Lethbridge.

J. McNeil and M. Leskoaky returned home from Vancouver to resume school.

Mr. and Mrs. B. Hollinghead and daughter Sheila visited Margaret, who has just completed her normal school course at Calgary.

Born to Mr. and Mrs. N. Dudley on October 31st, a daughter.

S. Siga, RCAF, returned to Pearce after visiting friends and relatives here.

The Hungarians held a dance in the Catholic hall on Saturday night, last that was well attended. Twenty-five per cent of proceeds went to the Milk For Britain Fund.

A Catholic Youth party was held in the Catholic hall on Friday night last, and was well attended. H. M. Neil is president, and Miss E. D'Amico secretary-treasurer.

Mrs. B. Carter has returned from a visit with her daughter, Mrs. C. Andrew, at Lethbridge.

Prosperity certainly has come to certain sections of the south. One place reports no chicken stealing for the past six months.

Sees No Lack Of Opportunities In Post-War Years

NEW YORK.—George W. Spinney, president of the Bank of Montreal, said that the postwar task of the United Nations would be "to rebuild a world in which, between men of different nations, undertakings great and small may be initiated in confidence and in which promises may be fulfilled in honor and in safety."

In an address prepared for delivery before the Investment Bankers' Association of America, Mr. Spinney said the rewards of success in such a task would be "dazzling," but the consequences of failure were "too bleak even to contemplate."

"It is idle," he said, "to ignore the magnitude and complexity of the problems which the postwar world will have to face, but it is equally idle to shut our eyes to the tremendous opportunities for enterprise and initiative which the very task of reconstruction will present."

"Until the tensing millions of the as yet undeveloped areas of the world have satisfied their last material desire, I do not think we need to worry about lack of markets or lack of opportunities, nor do I think that as nations we need to start eyeing each other uneasily as postwar competitors in a restricted world."

The patriotic urge to save would disappear with the end of the war, and some people would want to cash bonds to satisfy long-deferred wants, he said.

"The concept of a mad rush to cash bonds at the end of the war is something that I myself am not inclined to accept without considerable reservation. . . . The desire to save can be projected into the post-war years if we see to it that the act of saving continues to be respectable and that savings will be respected."

That, he added, presupposed continued confidence in the individual nation and its currency, and "to provide an enduring foundation for this confidence we shall have to ensure that the post-war years will give the lie to a philosophy of economic defeatism which we see lurking in certain quarters today."

"Basically, the condition necessary to the attainment of all these objectives is a high and increasing national income, not in terms of high and increasing prices, but in terms of high and increasing productivity."

"That is the key to the problem of postwar debt, postwar employment and postwar prosperity."

MORE HOME NEWS

Is To Be Provided For Canadian Troops In Italy

OTTAWA.—Canadians in Italy will get more home news from the Eighth Army paper, published in the field, through arrangements to increase wordage supplied by The Canadian Press to 500 daily.

Since the beginning of September CP has provided a weekly budget of items for the "Eighth Army News" which has been read by Canadians in the absence of The Canadian Press News, published weekly in London for distribution to Canadian servicemen. The latter has been shipped regularly to Italy but is not yet reaching the troops effectively.

It is understood the Canadian army is investigating means of expediting even small shipments of the CP news in view of its full Canadian content and because Canadian news is considered of great importance to morale of the troops.

COURTESY REWARDED

LONDON.—Stanley Ernest Hopworth, retired cloth manufacturer who died last April, was impressed by the courtesy of the young shopgirl who waited on him in an electrical store five years ago. Probate of his will recently disclosed he left the girl, Mrs. Allie Earnshaw, now 26 and daughter of the shop-owner, the equivalent of \$90,000.

LEAVES NEW YORK

NEW YORK.—The U.S.S. Lafayette, former French liner Normandie, has lifted anchor and departed for an unknown destination. The big liner recently was raised from the Hudson river. She had lain on her side since the disastrous fire which swept the ship in February, 1942.

LONDON.—Reuters news agency, quoting the Malmö correspondent of the Stockholm Svenska Dagbladet, said that a state of emergency had been declared in Berlin and 40 other German cities. The report was confirmed by travellers, arriving from Germany.

David Lloyd George And Bride

David Lloyd George and his bride (Miss Frances L. Stevenson, his secretary, at the time the photograph was taken last January). The 80-year-old Welsh wizard and Miss Stevenson are pictured strolling across the lawn at the former's farm at Churt, Surrey. Lloyd George's wife died in 1941.

Critical Battle Coming In War Over Inflation

OTTAWA.—Finance Minister Isley said that the "most critical" battle in the war against inflation is "just getting under way" and that the government hopes to announce shortly decisions arising from a review of the price and wage stabilization program.

Commenting on the announcement of an increase in the cost-of-living index during the past few months, Mr. Isley said in a statement that rising wage costs cannot continue "indefinitely" and it is "clear that in the national interest the price ceiling must be held."

Describing the rise in the cost-of-living index during the past few months as "some indication of the great strains" on the price ceiling, Mr. Isley said:

"It is my belief that the most critical battle in the war against inflation is just getting under way. Canada has been more successful than most other countries in holding prices, but these successes could be swept away in the space of a few short months if controls were to be relaxed now."

"While wage earners will be compensated for the higher living costs by a higher bonus, costs of production will also rise and it will become increasingly difficult for goods to be sold at ceiling prices. "This process of rising wage costs cannot continue indefinitely without wrecking the price structure. The government is fully alive to the dangers and now is reviewing the whole price and wage stabilization program. It is hoped that the government will be able to announce its decisions shortly. It is clear that in the national interest the price ceiling must be held."

HEALTHY TROOPS

Standards Required In Canada Highest In World

MONTREAL.—Brig. J. C. Meakin, deputy director-general of medical services in the Canadian army, says in an article in the current issue of the Canadian Medical Journal that it is unjust to say that physically Canada is a "C" category country.

Brig. Meakin says that "the traditional A1 category citizen was an Adonis of almost mythological perfection and it is an admirable compliment to the manhood of Canada that there were so many available in its hour of need."

"The anatomical physical standards required of the Canadian army were the highest in the world," he said.

HEFTY STUDENTS

EDMONTON.—School students in Edmonton are growing taller and broader, and says R. S. Sheppard, superintendent of schools, that's not good for the school desks. He reported to the school board that desks, especially in the intermediate schools, are getting too small for the pupils. The board approved purchase of 50 large moveable desks at about \$12 each.

Empire Council Is Subject Of Talk In London

LONDON.—The present system of consultation between members of the Commonwealth has "proved quite satisfactory" to the dominions and most of the needs of wartime conditions, Viscount Cranborne, the dominions secretary, told the house of lords.

Lord Cranborne, winding up a debate initiated by Lord Elibank's support of a proposal by Premier John Curtin of Australia for a permanent empire council, said the system entails visits of dominions and British ministers to other empire countries and daily conferences between the dominions secretary and empire high commissioners.

Lord Cranborne said there have been only rare occasions when, because of the war, the British government had taken decisions without adequate consultation. He said he wanted to "obliterate" the impression that the policy of the empire was still directed entirely from London without adequate consultation.

The dominions secretary disclosed "soundings" had been taken again for a meeting of dominion prime ministers in London but Prime Minister Peter Fraser of New Zealand had been unable to come because of illness and Curtin can not make the trip at present.

Lord Elibank suggested Ottawa as the ideal location for the empire council because Canada is the geographical centre of the empire and the natural link between the Empire and the United States.

Lord Cranborne promised that the government would "consider more sympathetically" acceptable suggestions for the improvement of the structure of imperial collaboration. This presumably would include Curtin's council suggestion. The Australian premier had said Britain could not manage the Empire on the basis of a government sitting in London.

Viscount Bennett, former prime minister of Canada, said if Curtin's words meant that Britain sought to control the dominions, the Statute of Westminster showed this was at variance with fact.

Lord Bennett said an effective league of nations could not be formed "unless we can create a real commonwealth" and he declared "there must be one foreign policy for the Empire or else the Empire would disappear."

Lord Lang, the former Archbishop of Canterbury, suggested as "more permanent and definite" than Curtin's

Commander

Brigadier H. A. Sparling, 36, formerly of Ottawa, who has been promoted overseas from the rank of lieutenant-colonel and made commander, Royal Canadian Artillery, of a Canadian division overseas.

NEW CREDIT ACT

Bill Governing Debt Arrangement For Prairie Farmers Being Amended

OTTAWA.—Early proclamation of a bill amending and extending the Farmers' Creditors Arrangement Act was forecast by federal authorities as finance department officials and prairie attorneys-general conferred on the setting-up of the new administrative machinery which will be required.

Hon. Lucien Maynard of Alberta, Hon. J. W. Ealey of Saskatchewan and Hon. J. O. McLaughlin of Manitoba met Finance Minister Isley and promised their co-operation in establishing the new system under which courts, rather than boards of review, will deal with cases of debt arrangement between prairie farmers and their creditors.

proposal an imperial council composed of representatives appointed by the dominion parliaments for a certain period and in numbers proportionate to each country's population.

Lord Lang asked whether reorganization of the present commonwealth set-up had not become imperative to fulfil the many tasks necessary after the war.

Asking for machinery for establishment of machinery for joint action and consultation, Lord Craigosky said:

"In wealth, in population and in power the rest of the Empire will in days to come be far greater than the United Kingdom and the Empire possesses no central machinery adequate to its needs or its inherent greatness."

Getting Mail To Troops Is Big Job

—Canadian Army Photos.

Facing a deluge of Christmas mail, the Army Postal Corps authorities point out that to send a parcel to the Mediterranean area for example, it has to go through nine distinct operations. Multiply this by thousands upon thousands of parcels, and some idea of the task may be gained. But the mail does go through as these pictures, two of which were received recently from Sicily, indicate. In the lower picture is shown mail being started on its way at the Base Post Office in Ottawa. Top right, the mail is delivered in Sicily, with Pte. John Roth, of Stratford, Ont., a postal orderly of the Royal Canadian Regiment distributing to Ptes. George Soudan, Montreal, left, and H. M. Frame, Clinton, Ont.; top left, that letter from home is answered. The soldier with a lot to write home about is Pte. E. Barber of Jarvis, Ont., 45th Highlanders of Canada.

Western Canada Will Benefit By Research Work

SASKATOON.—Butylene glycol produced from wheat by fermentation, now entering pilot-stage development at Ottawa, holds great promise as a basis of chemical industry for plastics and as an antiseptic in addition to its use for artificial rubber, according to information given to the prairie regional committee of the national research council, at its meeting here.

The committee reviewed recent research and developments in the industrial utilization of agricultural products for both non-food and food uses. Plans for extended research in western Canada on western problems were being made.

Representatives of departments of agriculture reported good stands of milkweed and forecast new hybrid sunflower varieties yielding 40 per cent. more seed. Milkweed resins are promising as blending materials for synthetic rubbers. New methods borrowed from mining are under study at the national research laboratories and are expected to lessen the cost of isolating the resins. The use of milkweed floss to replace kapok, a buoy-filling material which is in short supply, is now being considered.

The time lag between research findings and their application by industry or farmers was stressed, and ways of shortening it were discussed. A balanced picture of western agriculture problems was presented to the committee which considered production and food uses as well as industrial non-food uses.

Expansion of many research studies, now in progress but hampered by manpower shortages, was considered essential to the sound development of post-war plans. Soil surveys, especially fertilizer requirements and land-use recommendations, expanded research in Canadian wool and in vegetable and small fruits, are examples.

Dehydration methods are improving and the industry is expected to hold its own after the war, particularly when production is far from consumer markets, it was said. Dried eggs which cannot be distinguished from shell eggs are now available and will be widely used in the food industry. Skim milk powder is also well developed but production is yet to be solved in producing whole milk powder and dehydrated vegetables can be improved. When tin again becomes available the canning of many new Canadian products was thought to hold great promise for the west.

CANADA TOWN

New Soldiers' Resort Is Established In Italy

CANADA TOWN, Italy.—You won't find Canada Town under that name in any Gazetteer, but it is a name that will be recorded in the story of Canada's participation in the Italian campaign and one that will be on the lips of many an old soldier after the war.

Canada Town is a pleasant Italian mountain city captured by the Canadians who, with typical thoroughness, have given it a new name; even to the extent of naming streets after familiar thoroughfares back home, opened theatres and generally converted it into a rest centre where soldiers can get a breather from front line duties.

There is an occasional reminder in the form of a few shells that the Germans are not far away.

Auxiliary services have opened an "Aldershot Officers' club" for commissioned officers and a "Beaver club" for other ranks. Two movie houses are doing a thriving business. A third will be opened shortly and there have been promises of a stage show with "legs."

Life revolves around a big square in the heart of Canada Town, which has "Piccadilly Circus" painted in bold black letters at each corner. Portage avenue is the name given one street.

The Officers' club, managed by Capt. Doug Burke, 28, Swift Current, Sask., has a comfortable reading room stocked with Canadian papers and magazines, a banquet hall, bar, billiard room and card rooms.

The Beaver club's most popular feature is the hostel set up on the top floor by Major R. O. Wilkes of Winnipeg, Anglican padre of the Royal Canadian Regiment. A hundred men can be accommodated overnight.

When I visited the canteen groups of men were reading papers, writing letters and playing cards. Catching up on the news was Sapper Bruce Ahlstrom, 28, Liveland, Sask.

THE BLAIRMORE ENTERPRISE

Office of Publication
BLAIRMORE, ALBERTA

Subscription, to all parts of the Dominion, \$2.00 per annum; United States and Great Britain, \$2.50; Foreign, \$3.00; payable in advance.

Business locals, 15c per line.

Legal notices, 15c per line for first insertion; 12c per line for each subsequent insertion.

Obituary notices, inserted free of charge, but lists of floral offerings charged at 10 cents per line.

Blaimore, Alta., Fri., Nov. 12, 1943

MAIL SERVICE TO THE TROOPS

In the last four months the Press and public have indicated some concern over the mail service to Canadians taking part in the campaigns in Sicily and Italy.

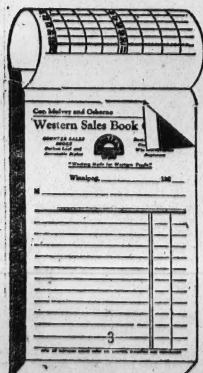

The postmaster general, Hon. W. P. Mulock, thinks that a frank statement of what has been and is being done will best serve to allay misunderstanding.

The Canadian forces proceeding to the Mediterranean theatre assembled at a British port and mail was delivered by the Canadian Postal Corps, through the co-operation of the Royal Navy, up to the time the last boat in the convoy left the port. After the departure of the convoy all mails for the troops in the Mediterranean theatre had to be "frozen" for security reasons until the official announcement was made of the invasion of Sicily on the 10th of July.

The first despatch for Sicily was made by air on July 10th, and the first despatch of surface mail, consisting of approximately 1,200 bags, was made on July 18th. Surface mails must be despatched in convoys and the elapsed time between the United Kingdom and the Mediterranean theatre is approximately 21 days. The parcel mails posted in Canada in June, which had to be held in the United Kingdom for security reasons, were, therefore, not delivered in the Mediterranean area until approximately August 10th.

Operational difficulties have to be contended with. For example, the steamer carrying mails for the Canadian forces in the Mediterranean in the next maintenance convoy was damaged by enemy action and had to put in to the nearest port for repairs, resulting in a delay of at least three weeks in the delivery of 800 bags of mail for the Canadian forces.

Here is another example of mail for Canada from Sicily. A number of bags of parcels and letters, which would include letters mailed by soldiers in the first week of August, were loaded on a boat which started in convoy about the end of August. Operating trouble forced it out of convoy to the nearest port. When ready

Western Made for
Western Trade

Agents

The Blaimore Enterprise

to sail, it was sent on an operational trip and finally docked at Algiers the beginning of October with the despatches still on board. This mail could not possibly have been delivered in Canada before the end of October.

Partial explanations of surface delays have been: Security reasons in England; waiting for convey, length of journey.

The average elapsed time, surface mails, posted in Canada for delivery in the United Kingdom, is 58 days, and between the United Kingdom and the Mediterranean theatre, 21 days.

From a standpoint of comparison with British and United States mails, it might be noted that the Canadian forces proceed to the Mediterranean from the United Kingdom. The U.S. forces proceed directly from the United States. For security reasons, Canadian mails must be routed to the United Kingdom until such time as an official announcement is made of the Canadian forces having arrived in the theatre of operations. As mentioned, the bulk of the U.S. forces proceed directly from the United States and mail can be despatched by direct sailings as soon as it is announced that the troops have left the United States. As soon as Canada is informed of the arrival of Canadian troops in the Mediterranean, mails are diverted for conveyance by direct sailings from the United States, bypassing the United Kingdom. British troops, on the other hand, have not the long trans-Atlantic voyage to contend with and the United States send much of their ordinary letter mail by air.

The above general remarks refer to the early stages of mail handling. The present situation is important. All surface letters are despatched direct from New York to North Africa by United States ships, whose mail carrying facilities are open to us through the courtesy of the United States post office department. It is ex-

COWLEY HAPPENINGS

Mr. and Mrs. James Clinton's small daughter Margaret is attending school in Pincher Creek for the ensuing term.

Miss Mollie Milvain, of Calgary, is visiting her parents here, Mr. and Mrs. Harry Gunn.

Mrs. James Wilson and small son David, of Athabasca, are paying a visit to Mr. and Mrs. Alvin Murphy.

After spending a few weeks with her parents here, Mr. and Mrs. C. J. Bundy, Mrs. Vic Lewin has gone to join her husband on Queen Charlotte Islands, where they will reside in future.

Visitors to Calgary during the week were Mrs. I. Christie, Dick Alexander and Ronald McNeil.

Mr. and Mrs. Frank Webber left Thursday on a month's visit to relatives at the Pacific coast.

Mrs. Archie Swart entertained the Ladies' Aid of the United church at her home on Wednesday afternoon. The sum of ten dollars was voted to the Home Maintenance Fund.

Charles Poulson has returned from Pincher Creek, where he was inmate in St. Vincent's hospital for a couple of weeks.

The village school observed Armistice Day as a holiday.

Mrs. George Dwyer returned home

on Tuesday from a visit with Mr. and Mrs. Tom Dwyer at Pincher Creek.

with his parents here.

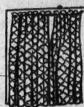

A well attended whist drive, sponsored by the Red Cross, was held in the Masonic hall on Wednesday evening. Prizes were won by Miss Nellie McWilliam, ladies' first; Mrs. Michael Perc, consolation; Harry Rogers, gent's first; Bert Bone, consolation.

Michael Elton acted as master of ceremonies. Mrs. Malcolm McMillan and Mrs. George Porter were on the refreshment committee. A lively dance concluded the evening's amusements, with music supplied by H. Weir at the piano. The next of these drives will be held on November 24th.

STOP COAL WASTE

Prevent excessive heat loss by closing windows and doors promptly.

Draw shades or drapes over windows all evening and night. Save up to 10% on your fuel this way.

BUDGET YOUR
COAL-PILE!

Coal is the backbone of our entire war effort. Every ton is precious and is needed to help speed victory.

You can do your part to meet the emergency by budgeting your coal pile... by practising the conservation methods outlined in the free booklet illustrated at the right.

Save one ton in five

SAVE
PAPER

WASTE paper is a valuable war material—don't throw it away or burn a scrap of it. Canada needs it—needs it badly—needs it NOW!

Paper wraps up the detonation charges in land mines... holds the charges of parachute flares in place... is used for wedding and war uses of waste paper.

Paperboard cartons are the most important shipping containers on this continent. They are made of waste paper. Shells, gas masks, munitions, field telephones, shell casings, food, clothing and other material are shipped to England in these cases. Thousands of them must be made, and made quickly.

This ever-increasing demand is causing an acute shortage of waste paper. It's a shortage which you can overcome by saving every scrap of paper and giving it regularly to your Salvage Committee.

Help provide the shipping cases! Help get the tools to Churchill! Start today.

CHRISTMAS December 29th this Year?

Certainly we'll have Christmas this year on the same day as usual, December 25th. But what is Christmas without gifts and remembrances. And if these arrive late or maybe not at all—what happens then?

More than ever this year we urge you to **DO YOUR CHRISTMAS ORDERING EARLY**—if at all possible do it **RIGHT AWAY**. Wartime conditions will place all facilities under an abnormal strain later on. A great deal of merchandise will be difficult or altogether impossible to secure. Mail and transportation service will be operating under tremendous pressure. This year—as a patriotic gesture as much as for your own greater satisfaction—

Do Your Christmas Shopping Early!

THE T. EATON CO.
WESTERN CANADA LIMITED

THE COAL MINERS

Coal mining is hard, dirty and dangerous work. It is a job that few of us in other occupations would care to work at. In this respect there must be a degree of popular sympathy for the cause of those who labor in the mines.

But the coal miners of this country have gained sympathy by the actions of their unions in recent months. They know that there is a coal shortage and the requirements of war depends to a considerable extent on expanding production.

If German armies were marching across Canada, as they did in Russia, there would be no coal strikes. There are none in Russia. And the Germans might be here if it were not for Russia and the British.

The coal miners of Alberta are paid over three times what the miners in Wales receive and probably five or six times the pay of Russian miners.

There has been a great deal of public sympathy felt for coal miners in this country. If they irritate popular feeling beyond all reason the reaction in the years ahead may have surprising and painful results.—Brooks Bulletin.

"V"
SMILE AWHILE!

Almost anything might turn up in a draft board's mail. Take this wistful note, for instance, which the New Yorker says was received by the local board recently:

Selective Service Board,
New York City.

Gentlemen:

I have just heard that you classified John K. ——— in 3-A, because he is living with his wife. I believe he should be reclassified and put in 1-A, because he isn't living with his wife. He is living with my wife.

Sincerely,
M ——— B ———
"V"

Most Blairmore soldiers observed Remembrance Day as a holiday. Banks were open for business.

THE FUNDS of the depositor are the first concern of Canada's Chartered Banks.

Canada's Chartered Banks are the proud custodians of more than 4,350,000 savings deposit accounts. These accounts, averaging \$391, represent the work and thrift of you and your neighbours—of heads of businesses and heads of families.

Naturally, the first concern of these depositors is that their money, or any part of it, shall be available when called for. *That is the banks' first concern, too.*

The Bank Act specifies the types of transactions in which the

Chartered Banks of Canada may engage. But it is the banks' responsibility to analyze the assets and prospects of the intending borrower. They must be such as would satisfy you if you were asked to lend your money.

Funds deposited with the Chartered Banks form the basis for loans to individuals, businesses, institutions and Government. Your savings thus help to sustain business activity and the general welfare of the nation.

THE CHARTERED BANKS OF CANADA

For Your Long Winter Evenings...

VITAL TO WAR INDUSTRY
(PARTICULARLY THOSE
OF WOOL AND SILK)
**RAGS
PAPER
FATS AND BONES**

ALL war industries need rags... handfuls of rags... pounds of rags... tons of rags. And you can help supply them.

Without rag wipers to clean the cutting lubricant from planes, millers, drills, lathes, Canadian war workers would be inefficient, their output reduced, their efforts hampered.

Without rags, explosive plants would slow up, aeroplane factories would find their production out, and wheels of shell factories would dawdle.

Start an old-fashioned rag bag in your house today. All kinds of old, worn-out, too small and otherwise useless garments are badly needed by war industries—everything from cotton underwear to old shirts and ties—from Grandpa's red flannels to Grandson's seamless corduroy pants.

These are real sinews of war which you can supply. Every rag in your home should go to war industries through your Salvage Committee. Clean out and clean up on Rags!

WORLD HAPPENINGS
BRIEFLY TOLD

A hot mid-day meal costing pupils one penny a week is provided by authorities of the vocational school.

After 73 years research scientists in Britain believe they have developed a potato with the power to resist blight.

A quilt of "glass silk" forms the foundation for the floor in soundproof rooms for the flat of the future at a practical planning exhibition in London.

New Zealand has offered to panel and furnish a room in the City of London's famous Guild Hall, which was wrecked by bombs in the great "blitz" and is being reconstructed.

The percentage of losses of aircraft making the North Atlantic crossing was less than one-half of one per cent. for the year ending Sept. 30, the British Air Ministry announced.

Long range tank tanks constructed from paper, animal glue and gossamer now are carried by British fighter planes. There is little loss of material when they are jettisoned.

The United States shipped 19,722 tons and the United Kingdom 40,848 tons of supplies to French West Africa for civilian use during the first six months of 1945, the War Cabinet announced.

Taxi owners predict a cab-famine for London this winter. There are only 4,500 taxis left in the metropolitan area, about half the pre-war number, and the demand has increased 50 per cent.

Cmdr. Stephan King-Hall, British Conservative M.P., told an Empire Club audience at Toronto that the price civilization is paying for war totals \$50,000 a second or \$422,000,000 a day.

Course Is Interesting

Women Of Royal Canadian Air Force Study Aerial Photography

Taking wings today are women photographers of the Royal Canadian Air Force while training for "ground crew" work in service darkrooms and laboratories.

From take-off to landing, they are in for a thrill-a-minute in this course of instruction. The girls average three flights under the supervision of trained instructors at the R.C.A.F. photographic school at Rockcliffe Air Station near Ottawa. They are taught all ground crew photographic processes, and also given brief aerial photographic experience so they will understand problems that confront flying men who turn their films over to the airwomen for finishing. Previous to one recent flight, ground preparations were carried out by the girls.

Following four and one-half months' instruction in both aerial and ground photography, the airwomen travel on posters to stations in all parts of Canada, where they are releasing men for air crew duties.

HOME SERVICE

CURTAINS ADD A TOUCH TO A ROOM

Gay Curtains

What could be more dainty for a young girl's room than these sweet, fresh dainty curtains. Not only are they attractive but they are easy to make! The curtains in the above illustration have 15-inch fringe which are edged with red ball fringe. You'll be surprised how professional-looking curtains made by yourself will look—not only smart, but also individual, because they will reflect your own personality!

You can definitely add a touch of individuality to your home by making your own curtains and draperies. Know what fabrics, colors, and styles to choose for various types of windows.

A graceful swing valance may be just the thing that is needed in one place; a gaily decorated cornice in another.

Our 32-page booklet will help you in the ideas as well as give full instructions for making them. New ideas in window treatments are easy to carry out with step-by-step directions and diagrams.

Send 15c in coins for your copy of "New Ideas in Making Curtains and Draperies" to Home Service Dept., Winnipeg Newspaper Union, 175 McDermott Ave. E., Winnipeg, Man. Be sure to write plainly your name, address, and name of booklet.

SUNDAY SCHOOL LESSON
NOVEMBER 14

THE SANCTITY OF THE HOME

Golden text: Blessed are the pure in heart, for they shall see God. Matthew 5:8.

Lesson: Exodus 20:14; Matthew 5:27-30; Mark 10:2-12.

Devotional Reading: Proverbs 2:11-22.

Explanations and Comments

The Law of Purity, Exodus 20:14. Thou shalt not commit adultery. "Concubinage" was quite common among the Hebrew people, and adultery was probably thought of more as an invasion of the rights of another than as a looseness in morals. That concubinage was found to be a really demoralizing influence in the life of the people is very clear.

How Jesus Expanded the Seventh Commandment, Matthew 5:27-30. Ye have heard that it was said, but I say unto you: Jesus finds the germ of adultery in the lascivious look. "The unlawful act is wicked. The ugly desire which would crawl into action if it could and dared is also wicked. The place of that punishment is intended to keep alive an unseemly longing is a thing hateful in Jesus' eyes. The righteousness which makes the righteousness of the Scribes and Pharisees has to do with one's secret thoughts.

And if thy right eye causeth thee to stumble, pluck it out, and cast it from thee. As in our text last Sunday, Jesus is here making use of hyperbole, a rhetorical device for making a statement emphatic, a figure of speech in which one says more than he means for the purpose of creating a strong effect. For it is profitable for thee that one of thy members should perish, and not thy whole body go into hell. "Hell" is Gehenna, the place of final punishment. The meaning of this saying is that those who are seriously tempted should discipline themselves with the greatest severity, depriving themselves even of lawful pleasures. Thus certain amusements and certain kinds of reading, in themselves harmless, are to some occasions of sin. Such persons ought to avoid them altogether. Others find friends which they value so dangerous that they ought to give them up.

This giving up of what is pleasant and lawful, because to us personally it is a spiritual peril, is what our Lord means by plucking out the right eye and cutting off the right hand. Asceticism of this kind is different from the asceticism of those sects which regard the body as evil. Its principle is that it is better to live a plain life than a complete sinful life.

STUDY BOMBING MAPS

At a Survey Training Centre personnel of the A.C.F., the United Kingdom equivalent of the C.W.A.C., learn how to revise maps from photographs taken by reconnaissance pilots. By studying the revised maps the R.A.F. learn exactly which targets are to be destroyed at the targets shown.

THIS CURIOUS WORLD

By William Ferguson

T.M. REG. U.S. PAT. OFF. "623"

ANSWER: Supine.

Canadian Rail Chief Invests U.S. Colonel

It's news when a Canadian railway president invests a Colonel of the United States with the eagle insignia of his new rank. This unique ceremony took place somewhere in northern Manitoba where Lieut.-Col. J. F. Frain, Officer Commanding, United States Army Forces, Central Canada, headquarters Winnipeg, received news from Washington that he had been appointed full Colonel. He was on a trip inspecting the Canadian National Railways' northern facilities with R.C. Vaughan, chairman and president. The investiture took place in Mr. Vaughan's car, "Bonaventure", which was taken as an open of "good going" for the Colonel. Born in Kentucky 33 years ago, brought up in Mississippi, Colonel Frain's home, now, if it hadn't been for the war, would be in Beverly Hills, Calif. He has seen action in all parts of the world.

Fireproof Clothing

Will Soon Be A Reality Due To New Chemical

The discovery of a new chemical fire retardant known as "CM" has put into the hands of man another potent weapon to keep fire, his most valued but least trusted servant, in check, according to John Howard-Jones, writing in C-I-L Oval. Clothing of all kinds, from little girls' frilly party frocks, sheerest negligees, velvet evening gowns to fire welders' overalls and military uniforms may be made fire resistant by dipping or spraying them with the chemical so that, though they may char upon contact with fire, they will not burst into flame. Moreover, this chemical newcomer does not affect the "feel" or appearance of fabrics and it would take an expert, or a flame, to distinguish between treated and untreated materials. The most immediate use of this fire retardant chemical, however, will be in the treatment of soldiers', sailors' and airmen's uniforms, and of textiles for war machines such as tank linings, civilian use bowing once again to military demands.

Irish men found in the waters off the North Atlantic coast is used in puddings, medicines, cosmetics and lotions.

Buy War Savings Stamps Regularly.

CAMPAIGN AGAINST TUBERCULOSIS

Eighteen hundred student nurses and exposed hospital and sanatorium employees in Saskatchewan have been vaccinated for tuberculosis since March, 1938, Dr. R. G. Ferguson, medical director of the Saskatchewan Anti-Tuberculosis League, reported at the annual meeting of the Canadian Public Health Association in Toronto.

Doctor Ferguson said that of all those vaccinated only 10 persons had developed tuberculosis lesions. During a five-year period preceding the use of vaccine, 20 employees who entered the service with negative tuberculin tests developed lesions.

"The protection of staffs, particularly nurses in general hospitals, mental hospitals and sanatoria, against tuberculosis is a responsibility that rests upon all health workers, and particularly on tuberculosis workers," Doctor Ferguson said. "This was an increasing problem in Saskatchewan until recently, notwithstanding improved nurses' homes, better food, supervised by dietitians, and better training in infectious technique. The problem is acute wherever the incidence of infection is falling."

Experience in vaccination of 432 Indian babies during the past 10 years had shown a mortality reduction of 75 per cent. among those immunized as compared with those not protected.

The vaccine employed is Bacillus Calmette-Guérin, originated by the Pasteur Institute, Paris, and introduced to Canada in 1925. The vaccine consists of living attenuated bacilli which are harmless but, upon entering the human body, set in motion the resistant bodies which provide a degree of immunity.

Reporting on other phases on the campaign against tuberculosis, Doctor Ferguson said the use of miniature films had made mass surveys possible at a cost of 15 to 20 cents per person or \$20,000 for 100,000 individuals. The photofluorographic film, a recent development, makes possible rapid selection of definite tuberculosis cases.

PRINCESS OFFICIATES

Princess Elizabeth, who will not be 15 until her birthday next April 21, fulfilled her first "grown up" social engagement when she presented prizes at the Royal College of Music. The Queen attended the ceremony with her but remained in the background. 2541

Free Legal Advice

The Poor Man's Lawyer Association Is Operating In Britain

Since the outbreak of war, further steps have been taken in the United Kingdom to ensure that free legal advice reaches those who would otherwise be unable to afford it. The Poor Man's Lawyer Association, which is run by the Law Society and was established before the war—continues to give free legal advice to poor persons. In addition, the Poor Man's Valuer Association, introduced since the war, has been set up by surveyors and others to give free advice on the War Damage Act.

MAKES A DIFFERENCE

When Gen. Sir Bernard Montgomery was talking to the boys of Amersbury school in Great Britain, shortly before he left for the attack on Sicily, he told them: "I would say that the chief difference between the German and the British soldier is that the German soldier laughs at other people's misfortunes while the British soldier laughs at his own misfortunes."

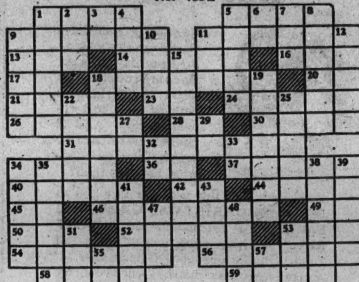

Has Big Possibilities

But Helicopter Not Yet Adapted For General Use

According to the experts mass production of the helicopter is not the answer to the readjustment problem which will face the airplane industry when the war demand drops off. The helicopter is technically safe and fool-proof in the hands of a trained operator. It needs no airfield. But engineers liken it to the automobiles made before the last war. It has big possibilities in the future when it has been through many stages of refinement and perfection. Also, the helicopter is not yet cheap to build.

BRITISH ARE PAYING

Some idea of how the British people are paying as well as fighting is seen in the fact that the total amount of the contributions of the British people to war loans, post office savings and other government funds, from November 22, 1939, until August 24, 1943, is \$27,222,825,130. And of this amount, \$360,481,840 has been lent to the British Government without interest.

"... an' don't come back until you get an order from the government!"

REG'LAR FELLERS—Embarrassing Question

BY GENE BYRNES

NO TEMPORARY RELIEF FOR ME... I'VE SAID GOOD- BYE TO CONSTIPATION!

©I'm working harder than ever these days. Have no time to be troubled by constipation due to lack of the right kind of "bulk" in my diet. Thank goodness there is a sensible way to correct that condition... instead of taking cathartics, which only give temporary relief. Why not try KEELOGG'S ALL-BRAN every morning and see

if this delicious cereal doesn't help you become "regular"... naturally! Get your KEELOGG'S ALL-BRAN daily... a drink plenty of water... and discover for yourself how easily your old "trouble" disappears. Get KEELOGG'S ALL-BRAN available in two convenient sizes at all grocers. Made by Kellogg's in London, Canada.

Beau Jonathan

by J.B. Ryan

CHAPTER X.

ANNE looked up questioningly and even Jonathan frowned, for neither the girl nor the man yet saw the net being woven by the tall dark man. "I am willing," said Lord Farquhar, "to let Master Hale go his way—for a price."

"And that price, my lord?" inquired Jonathan.

"Is that Mistress Jamieson go away with me," said Lord Farquhar.

"Not!" Furious, Jonathan leaped up and would have lunged himself upon Farquhar in spite of the waiting pistol had not Anne sprung forward also, catching him about the waist.

As he struggled with the girl who blocked his path, Jonathan shouted, "Summon the balliffs, Farquhar! I'll swing from a hundred gibbets before I let her even listen to your infamous proposal!"

"Wait, Jonathan!" cried Anne, imploring Anne. "I do not want you to be killed!" As Jonathan subsided, she clung to his still, and turned her head to speak over her shoulder.

"I accept, my lord. Spare this man and I—I shall go with you—"

"Anne!" cried Jonathan. "Send this devil about his business. If you love me—"

Her face was colorless. "I do this because I love you, Jonathan—please do not make it harder for me—"

"I will not permit it. I shall follow you downstairs and, if Farquhar will not fight me, I shall order my servants to seize him."

"If you show your nose downstairs," said Farquhar, "I shall tell what I know concerning you."

"You see, Jonathan?" Anne's smile was wan.

"But—Anne—even the shame you would accept will not save me. Lord Farquhar's promises are worthless. What is to prevent him from having me arrested after he has taken you?"

Farquhar sneered. "You can make absolutely certain of saving your worthless carcass by getting out of London this very night."

Jonathan broke away from the girl. But sudden as was his lunging, the desperate Anne hampered his movements to such an extent that Farquhar, seeing the man's purpose, was beside Jonathan as he won free.

His lordship's lifted arm descended savagely, crashing the butt of the pistol against Jonathan's head, and the stricken man fell forward to the floor and into darkness.

WHEN his senses cleared, Jonathan found himself propped in a heavy chair, a gag in his mouth, Farquhar kneeling to knot a cloth that, like the strips already about Jonathan's wrists, bound his legs securely to the frame of the chair. To one side stood Anne, her face as white as the silk of her dress. Her anxious eyes were fixed on Jonathan, but when she saw that he had revived her glance lowered, her downcast lashes making dark brown curves against her cheeks.

"Your servants should find you presently and set you free," said Farquhar. "For your own good, Hale, consider yourself the loser in this game. I shall arm my servants to-night and warn them against your possible coming. If you attempt to molest me, you shall be shot on sight."

The gag made it impossible for Jonathan to answer. But the eyes that glared at Farquhar flashed as eloquent as any words. Farquhar hesitated, frowning the pistol that tempted him, then nodded to himself and stepped to Jonathan's desk.

He found ink, quill and paper. As his lordship wrote the usual note, a minute, Jonathan tried to signal for Anne to grasp the opportunity to run. But Anne remained quiet and passive, as much a prisoner as the man in the chair.

FARQUHAR folded the paper, dropped wax on the flap and stamped it with the seal lying on the desk. "See this document, Hale? You are

a most stubborn man, and I do not discount the possibility that you may assassinate me in the days to come as I walk or ride through the London streets. Before I leave this house I shall entrust this sealed paper to one of my friends downstairs with instructions to open it in the event of my death. This paper, Hale, will inform the authorities where to find the man they hunt for Deny's murder. You will be safe from the gallows as long as I live."

He pocketed the paper, picked up one of Jonathan's own cloaks and draped the garment about the shoulders of the waiting girl. "Shall we wait, my dear?" murmured Farquhar.

Anne stepped close to the chair of Jonathan, bent over and touched her lips to the man's cheek. "Good-by, Jonathan," she whispered brokenly. "Do not—do not let my sacrifice be in vain."

THE helpless Jonathan watched them leave the room. Before the door had closed on the triumphant backward glance of Jonathan, there was a straining against his bonds and attempting to lift his mouth of the gagging cloth. The chair toppled and a stab of pain knifed through him from elbow to shoulder as his own weight added to the force with which the chair-back pinned his arm against the floor.

In spite of the discomfort, the desperate struggle continued. He would break an arm, he knew, if necessary, to free himself—he must catch Lord Farquhar and kill him—"

Jonathan, panting as from a hard day's labor, was still secured to the chair when, at long last, the door moved and Matt Tucker peered into the room.

"Entering hastily, he ripped the cloth away from Jonathan's wrists and ankles. "What happened?" he asked. "Has the place been robbed?"

"Get—get the gag out of his mouth. 'Get—get those horses, Tucker!' he managed in spite of his dry tongue. "Hurry—I have no time to explain! This is a matter of life and death."

Without question Tucker darted from the room. Jonathan pushed himself erect and staggered to the wardrobe on wooden feet. He grabbed the sword down from the wall, fastened it about his waist and, holding back his impatience to be gunned a brace of pistols and thrust the weapons through the ash about his waist. Then he raced into the hall and down the stairs.

The first person he encountered on the ground floor was Sir Maurice Blaine.

"Ah, Hale!" exclaimed Sir Maurice. "Dash it all, man, when have you been? I've been searching for you!" Jonathan interrupted. "Have you seen Lord Farquhar?"

"Farquhar has gone," Blaine nodded, his lips moving in a faint, suggestive grin. "Gad, Hale, you should have seen the attractive baggage he helped into his carriage!"

Jonathan's knotted fist drove into the face of the speaker. "You fool!" he grated. "Why didn't you stop him?"

Blaine reeled back, his face livid with pain and rage. "Dammie, Hale!" he snarled thickly. "I demand satisfaction for the blow below!"

Jonathan regretted the blow but he had not time for apology. He swept Sir Maurice aside back into the startled onlookers. "I'll see you later about that, Blaine—"

MATT TUCKER had one horse saddled and died when Jonathan reached the stables. Jonathan caught up a second animal by the time he had harnessed the girl, the servant who had the bridles on both horses. Jonathan handed one of the pistols to the sweep.

"Do you know where Lord Farquhar lives, Tucker?"

Tucker's wrinkled face screwed up usual.

then he nodded. "It lies some distance from here, sir. We shall have to cross most of the city to reach the place." He stared doubtfully at the gun in his hand. "There is to be trouble!"

"The role of Beau Jonathan has come to an end, Tucker. To judge of his haste, Jonathan had to acquaint the loyal old fellow with what might be ahead. "Gone is to be killed tonight. Before morning I may be stretched either on a bier or on the floor of a gaol. You too, may come to grief if you accompany me."

Tucker shoved the pistol beneath his coat and gathered the reins of the nearest horse. "I shall not desert you now, sir."

"Thank you, Tucker," Jonathan smiled gratefully. "But I give you your chance. From now on, our association is ended. I have given you money enough to keep you for the remainder of your days—"

"But even so, I am with you to the bitter end. Come, sir, and I will go now, my way to his lordship's residence."

The old sweep who had climbed into the saddle under the conversation, flicked his mount with the reins and turned the horse into the alley behind the stables. The moon came up, making it possible to travel the streets at any desired pace. In fact, they were able to move more rapidly because of the absence of daylight. Most of London was asleep now and the thoroughfares cleared of the usual traffic.

The horses went through the night at full gallop. This was the first time Tucker had ridden, and he bounded considerably as the hoofs pounded the cobblestones, but by hanging tensaciously to the saddle pommel, he managed to keep abreast of the more graceful Jonathan.

The vicinity of their destination they slowed and proceeded at a more cautious gait. Like Samson pulling down the temple, willing to die if his enemies perished with him, Jonathan Hale had no thought of self in his desire to come to grips with Farquhar. Though he hanged for it, he would gladly have brought the entire city with him to batter down Farquhar's doors. But that would not insure the rescue of Anne; any public investigation would result in Jonathan being hustled off to Newgate, leaving Anne still in the house of his lordship.

(To Be Continued)

Matt Tucker practices his old trade.

Agri-tecture Is Given First Place In Post-War Affairs

Food and agriculture have been given first place in post-war national and international affairs, enjoying recognition to an extent previously unknown.

The basic concept that a secure, adequate and suitable supply of food for every man is the first requisite of freedom from want has had universal acceptance and has reached a responsive chord in public opinion.

At the government of the United Nations have participated in establishing the Interim Commission, for which a Canadian, L. B. Pearson, minister-counsellor, Canadian Legation in the United States, has been chosen as chairman, and there is every reason to believe that the proposed permanent organization will be established.

MACDONALD'S CRACKERS

Never Bites

Bombs And Biscuits

The Nutritional Value Of Soda Crackers Is Well-Known (By Molly O'Dale)

Important items in the equipment of lifeboats and life-rafts on vessels of the navy are the biscuits. These are, usually hermetically sealed tins containing hard biscuits, designed to provide the maximum quantity of food compressed into the smallest possible space.

These biscuits are called "Emergency Rations" and are literal descendants of the "Sea-Biscuits" used as bread on old-time sailing ships which were at sea sometimes for months on end.

And they are closely related, too, to the Soda Crackers which are so universally used in Canadian homes.

Soda Crackers have much to recommend them besides their tasty flavor. They are really the "Staff of Life" for the soldier, sailor, and seaman.

Then, when it comes to calories, it's the Soda Crackers which, on the average, give you 100 calories for one cent. This is second only to navy beans which give 100 calories for a cent—and miles ahead of chicken which gives only eight calories for a cent.

But aside from their high nutrition value and economy, Biscuits and Soda Crackers are popular mainly because of adaptability. You can enjoy them alone, spread with a little butter. They go fine with milk, cheese, jam, marmalade, soup, peanut-butter, etc. And they are so handy—both for serving at regular meals or as a between-meal or bedtime snack.

Tree Protection

Satisfactory Repellent To Ward Off Depredations Of Rabbits

For the protection of trees against the depredations of rabbits in winter time, the Dominion Experimental Station, Scott, Saskatchewan, has tested many repellents, the best of which is a mixture of resin and alcohol, states G. D. Matthews, the superintendent. This repellent is easy to prepare; the rabbits do not eat the bark of trees where the repellent is applied, and it does not injure the trees. Like most things around the farm, the making of the repellent calls for attention to a few details which must be followed to obtain the desired results. The alcohol used must be denatured ethyl (Grade 2D under wartime regulations), available through hardware or paint stores. Lamp resin is used but, it must be finely powdered before dissolving. The lumps can be crushed by placing them in a sack and using a wooden mallet. The resin can then be sifted through a piece of fly screen. The proportions are eight pounds of powdered resin to a gallon of denatured ethyl alcohol. It is preferable to mix two pounds to a quart and use it right away as it must be kept in an airtight container after mixing. The resin and alcohol are stirred until dissolved. Under no circumstances must the solution be heated. It is well to keep in mind size of container when mixing, as the addition of the resin in these proportions practically doubles the volume of alcohol. A small paint brush is used to apply this repellent to the trees. If it becomes gummy while using, a small amount of alcohol can be added to restore the original condition. When applying the repellent, the bark must be absolutely dry, without mist or falling snow being present at the time. All parts of the trees which can or may be reached by the rabbits during the winter are treated. It is advisable to treat the trees as early as possible in the fall for protection during the winter.

The Blairmore Enterprise

John W. Fry has been elected as mayor of Edmonton for his seventh consecutive term.

An old maid thought she was about to die, so she called in a few friends and told them not to put "miss" on her tombstone, because she hadn't missed as many things in this life as a lot of people thought she had.

The rooms of the Blairmore BESL have this week been treated to a splendid flooring of battleship linoleum and other improvements. In order to do the work properly, a couple of days holiday for the beer emporium was observed.

All persons interested in playing badminton this season are invited to become members of the Blairmore Community Badminton Club. Miss Alice Hornquist is secretary. Fees are \$2, payable by November 15th, with monthly fee of 75 cents, payable by November 30th.

A few young lads who consider it clever to be marking up the front of business premises with chalk should be caught in the act and made to do the line well. Anyone noticing them at this practice should notify police at once. If they are caught in the act they will be paraded around at mid-day and forced to clean up, which should take the silly cleverness out of them.

Had the cost of living increased at the same rate as it did in the last war, the people of Canada this year would have had to spend \$700,000,000 more for staple commodities, food and clothing, than they have done under the price control regulations, it is stated. "Hold the stabilizing line. Keep down waste and rising prices," states Miss Saunders to Canadian women. "Women of today, working for today and thinking for tomorrow, know that there must be a stable economy for fighting of the war and winning the peace."

Local and General Items

The Editor will be glad to receive items for this section, regarding visitors, entertainers, parties, leaving for holidays or short trips, bridge parties, teas, showers, presentations, anniversaries, etc. Phone items in to 11 or hand them in at The Enterprise office not later than Thursday evenings.

Verona L. Bock, of Coleman, was member of a class of nurses graduating recently at Calgary.

The regular monthly meeting of Crows' Nest Chapter, IOOE, will be held in the Anglican hall on Tuesday evening next, November 16th, at 8:30.

The main provincial convention of the Alberta Social Credit League is to be held in Calgary on December 9 and 10. The Women's Auxiliary will meet the preceding two days.

Lieut. S. Nahrney, officer in charge of Salvation Army work in this district is to have an assistant. Lieut. R. Hammond will arrive this week end from the Peace River district.

All Pass towns went over the top in the Victory Loan campaign. Coleman oversubscribed by \$8,550, Blairmore-Frank by \$17,850, and Bellevue-Hillcrest by \$15,500.

Ceiling prices for cabbages, beans, carrots, parsnips and turnips, as sold by growers or shippers, wholesalers and retailers, are established by the Wartime Prices and Trade Board.

The fiftieth anniversary of the world's biggest cheese is being celebrated at Perth, Ontario, according to newspaper dispatches. We thought Benito Mussolini was the world's biggest cheese?—Ex.

Plum puddings and Christmas cakes, on the minds of Canadian housewives, will not lack suit to be bought under the price ceiling through a recent order of the Wartime Prices and Trade Board.

Canada's Fifth Victory Loan reached a total of \$1,337,887,850.

Mart Kenney, well known Canadian orchestra leader, is a hospital patient at Trail, B.C.

United Church officials announce the urgent need of 137 ordained ministers.

Pte. Louis Dorenzo, RCOQ, has recently been transferred to London, Ontario, to continue his mechanics course.

On account of Thursday of this week being a holiday—Remembrance Day—local stores kept open on Wednesday afternoon.

Louis Poch and party returned to Frank the early part of the week from a successful deer hunt in the North Fork country.

Twenty-five tons of magazines (the readable kind) have been shipped from Coleman to Halifax depot in the past three and a half years for the armed forces. All Pass towns contributed.

A year of war against the North African air forces has cost the Germans nearly six thousand planes, half destroyed in aerial combat, the rest in bombings of their bases. Allied announcements state.

Miss Dora Drain has resigned her position at the town office, and will leave shortly to take up residence at the coast. At a special council meeting on Wednesday, Mrs. M. J. Gillis was appointed successor, effective November 15th.

Three-year-old twins were burned to death near Huxley, Alberta, on Monday morning when they became entrapped in a farm home that was destroyed by fire of unknown origin.

Previously reported missing on active service and now reported prisoner of war in Germany is Sgt. George Rae Annand, son of G. R. Annand, of Waterton Park.

The mistress of the house was finding extra work for the maid. In the end the girl got fed up. Just then the mistress entered the kitchen. "Mary," she said sharply, "have you finished polishing the brass ornaments yet?" "Yes, madam," replied the girl; "all except your rings and bracelets."

During the big mass meeting of miners at the Columbus hall on Monday afternoon, a wallet containing about \$50 cash, registration certificate, etc., was stolen from a party who had just received the money by way of relief. It is hoped the guilty one will be apprehended and well punished.

President Roosevelt climaxed the signing of a United Nations relief agreement with the declaration that it, coupled with the recent Moscow documents, shows that "we mean business in this war in a political and humanitarian sense just as surely as we mean business in a military sense." It is one more strong link joining the United Nations in facing problems of mutual need and interest.

Natt. Squarcella, 68, resident of Coleman, passed away in a Calgary hospital on Tuesday. A native of San Giovanni, Italy, he came to Coleman about seventeen years ago, and had since been employed as a miner and later dry washer. He is survived by his widow, Lucia, in Coleman, and two daughters, Mrs. A. Sagro and Mrs. J. Riva, at Kimberley, B.C. Remains were laid to rest at Coleman on Thursday forenoon.

No whiskies are being distilled in the United States to replace decreasing reserves. Imports from Britain are away down and the liquor trade is worried fearing a return of the boot-legger.

A very successful smoker was held in the Legion clubrooms last night, attended by about one hundred members. A splendid programme of songs, speeches and instrumental selections was carried out.

A new honor roll is being drafted in Blairmore, to contain the names of professional bums and loafers who make it a practice of hanging around restaurants and hotel beer parlors. Their names are to be inscribed in suitable colors. The dedication, it is hoped, will take place before the Christmas rush.

Dr. Julius A. Vogel says life-saving penicillin is being produced in the kitchen of his Pittsburg home at five cents a plateful. Although a comparatively crude type, he says his penicillin has proved effective in treating external infections and that any properly equipped physician can grow his own supply.

The marriage took place near Edmonton last week of Miss Ethel McClelland, sister of Samuel McClelland, who had been employed at the Balastyne home at Beaver Mines, to Robert Eddy, son of Mr. John Eddy, of Castle River district. The young couple, who visited Blairmore over the week end, have taken up residence at the Eddy ranch.

Rev. Dr. J. R. P. Slater, moderator of the United Church of Canada, in affixing his signature to the petition of the Canadian national committee on refugees, urging the government to admit refugees to Canada, said: "There is no more pitiable object than a man with no home and no country. The Christian religion finds such a spectacle an unbearable thing; and a Christian land does what it can to remove that stain from the world. Canada will surely respond to the appeal of the homeless up to the limit of its power."
